PROFESSIONAL SUMMARY

Detail-oriented Web Developer with a strong foundation in frontend technologies and full-stack development. Proficient in building responsive and dynamic user interfaces using **React.js, JavaScript, and TypeScript**. Experienced in developing new components from design specs, writing clean and maintainable code, and optimizing existing code for better performance. A quick learner adept at working independently and contributing to scalable web applications.

SKILLS SUMMARY

- **Frontend & Languages:** React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Angular
- **Backend & Frameworks:** Java, Spring Boot, REST APIs, Node.js
- **Development Tools:** Git/GitHub, Postman, npm/yarn
- **Databases:** MySQL, SQLite
- **Testing & Debugging:** Chrome DevTools, Selenium WebDriver, JUnit
- **Concepts:** Responsive Web Design, Component-Based Architecture, Code Optimization, Caching

KEY PROJECTS

Cryptocurrency Portfolio Tracker – React.js, Spring Boot, MySQL

- Developed new, interactive UI **components** in **React** based on application requirements, ensuring a responsive and intuitive user experience.
- **Wrote clean, maintainable code** for both frontend and backend, following best practices for structure and readability.
- Analyzed and **optimized existing database queries** and API endpoints, improving data fetching **performance**.
- Implemented **client-side caching strategies** to reduce server load and enhance user experience.

Bank & Employee Management System – Java, MySQL

- **Understood and extended** an existing codebase to add new features like role-based access and transaction tracking.
- Applied object-oriented principles to create a **maintainable and scalable** backend architecture.

Expense Tracker – REST API, Java, Postman

- Built a dynamic frontend to interact with a custom REST API, focusing on creating **reusable components** for consistent UI and functionality.
- **Worked independently** to design, develop, and test the application interface, demonstrating strong self-management skills.
- Conducted thorough **debugging and optimization** of API interactions to ensure fast and reliable data display.

WORK EXPERIENCE

Intern

Software Engineering Internship

Nagpur, Maharashtra, India.

- Gained practical experience in the full software development lifecycle within a professional environment.
- Utilized **debugging tools** to troubleshoot and resolve issues in a live project.
- Collaborated with a team while also managing independent tasks effectively.

EDUCATION

- Bachelor of Technology – **Information Technology**; CGPA: 7.57/10 DEC 2021- JUL 2024
- Diploma – **Computer Science**; PERCENTAGE: 79% SEP 2019 – OCT 2021

CERTIFICATIONS

- HackerRank: Certified Java Developer, Certified Software Engineer Intern, SQL (Advanced), REST API (Intermediate)
- Certified React Developer | JavaScript Certification
- CompTIA A+ Certified | Star Cyber Secure User (SCSU) Certified

CORE COMPETENCIES

End-to-End Software Development | Backend Engineering (Java/Spring Boot) | Frontend (React/TypeScript) | Cloud Deployment & APIs | Agile Collaboration
